 Informing department: msds@mc-bauchemie.de 1.4 Emergency telephone number: Tel.: +49 / (0)700 24112112 (MCR) Tel.: +1 872 5888271 (MCR)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

- Classification according to Regulation (EC) No 1272/2008Skin Irrit. 2H315 Causes skin irritation.Eye Irrit. 2H319 Causes serious eye irritation.Skin Sens. 1H317 May cause an allergic skin reaction.
- STOT RE 2 H373 May cause damage to the lung through prolonged or repeated exposure. Route of exposure: Inhalation.

Aquatic Chronic 2 H411 Toxic to aquatic life with long lasting effects.

· 2.2 Label elements

· Labelling according to

Regulation (EC) No 1272/2008 The product is classified and labelled according to the GB CLP regulation.

(Contd. on page 2)

· Additional information	(Contd. of page 3) For the wording of the listed hazard phrases refer to section 16.		
SECTION 4: First aid r	neasures		
· 4.1 Description of first aid measures			
· General information	Remove contaminated clothing immediately. Consult a doctor if symptoms occur. Move affected person to fresh air.		
· After inhalation	Supply fresh air; seek medical advice if symptoms occur. If unconscious, place in recovery position and seek medical advice.		
· After skin contact	In case of contact with skin, wash carefully with plenty of soap and water. Consult a doctor in case of skin reactions.		

- After eye contact
 After swallowing
 Rinse opened eye for several minutes under running water. Call a doctor immediately
 After swallowing
 Rinse mouth with water. Never give anything by mouth to an unconscious person. DO NOT induce vomiting. If symptoms persist, consult a doctor.
- 4.2 Most important symptoms and effects, both acute and delayed

Advice for the doctor: Elementary aid, decontamination, symptomatic treatment.

SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- · Suitable extinguishing agents Use fire fighting measures that suit the environment.
- 5.2 Special hazards arising from the substance or mixture No 5.2 Advice for firefighters

No further relevant information available.

- 5.3 Advice for firefighters
 Protective equipment:
- No special measures required.

SECTION 6: Accidental release measures

 6.1 Personal precautions, protective equipment and 	
emergency procedures	Not required.
6.2 Environmental	
precautions:	Prevent material from reaching sewage system, holes and cellars.
6.3 Methods and material for	
containment and cleaning up	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
[•] 6.4 Reference to other	
sections	See Section 7 for information on safe handling
	See Section 8 for information on personal protection equipment.
	(Contd. on page 5)

See Section 13 for information on disposal.

(Contd. of page 4)

SECTION 7: Handling and storage

• 7.1 Precautions for safe handling	Open and handle containers with care. Only use in well-ventilated areas (e.g. open construction, outdoor areas), in rooms without air exchange (e.g. closed rooms, underground car parks) ventilation measures are required. are required. Wear suitable personal protective equipment (see section 8). Avoid contact with eyes, skin and clothing. Change contaminated or damaged gloves and contaminated clothing immediately and wash skin immediately. Mix slowly, partially covering the mixing container. Pour carefully and slowly when repotting. Observe the BGBau technical data sheet and practical guide for handling epoxy	
 Information about protection against explosions and fires: 	resins. Open and handle containers with care.	
7.2 Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and containers: No special requirements.		
 Further information about storage conditions: Storage class 	Keep container tightly closed in a well-ventilated place. 10	

SECTION 8: Exposure controls/personal protection

· 8.1 Control parameters

· Components with critical values that require

monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

· DNELs

	(Contd. of page 6)
· Penetration time of glove	
material	The breakthrough times of the Sol-vex 37-900 protective gloves are around 8 hours. The following applies to all other gloves:
	The exact breakthrough time must be obtained from the protective glove manufacturer and adhered to.
	Nitrile rubber
	Material thickness: \geq 0.40 mm
	Penetration time: \geq 480 min
	Butyl rubber:
	Material thickness: > 0.5 mm
	Penetration time: > 480 min
Evalface protection	
Eye/face protection	Tight-fitting safety goggles.
	Safety goggles.
 Body protection: 	Protective clothing
	Suitable protective clothing should be worn when working with epoxy resins. In addition to normal work clothing (long trousers, long-sleeved shirt or T-shirt), disposable overalls, aprons, overshoes, sleeve protectors etc. may be necessary depending on the activity. Uncovered areas of skin should be avoided as far as
	possible, even in hot weather. If the work involves kneeling, the lower leg area should be protected by protective trousers.

· Desensitised explosives	Void

SECTION 10: Stability and reactivity

 10.1 Reactivity 10.2 Chemical stability Thermal decomposition / 	No further relevant information available.
conditions to be avoided: 10.3 Possibility of hazardous	No decomposition if used according to specifications.
reactions	No dangerous reactions known
 10.4 Conditions to avoid 	No further relevant information available.
10.5 Incompatible materials:	No further relevant information available.
 10.6 Hazardous decomposition products: 	No dangerous decomposition products known
decomposition products:	No dangerous decomposition products known

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

· Uncleaned packagings:

· Recommendation:

IMO instruments

· Recommendation

Empty contaminated packagings thoroughly. They can be recycled after thorough and proper cleaning.
