Keep away from foodstuffs, beverages and food.  
Instantly remove any soiled and impregnated garments.  
Wash hands during breaks and at the end of the work.  
Avoid contact with the eyes and skin.

· Breathing equipment:

Wear respiratory protection in case of insufficient ventilation.  
The selection of respirators (EN 14387) must be based on the known or anticipated exposure concentrations, the hazards of the product and the occupational exposure limits (section 8.1) of the respirator in question.  
Particle filter PP1: Inert substance; P2, P3: Hazardous substances  
Provide adequate ventilation. This can be achieved by local exhaust ventilation or general exhaust ventilation.  
(EN 689 - Methods for determining inhalation exposure)  
This applies especially at the mixing or stirring place.  
If this is not sufficient to keep the concentration below the occupational exposure limit, provide respiratory protection.
